Experience

Jack Mason's Brewing | Community Manager

MAR 2018 - DEC 2018, REMOTE

- Managed social streams and brand strategy during the brewery's first year of business with the goal of targeting the local community.

- Organized and promoted community events leading to increased foot traffic, event attendance and sales records.

- Planned and produced media for all channels and responded to customer inquiries in accordance with brand tone.

Conpago: Aged Care Technology | Product Designer

MAY 2017 - MAR 2018, BRISBANE, AUSTRALIA

- Designed and implemented mockups and prototypes for three digital products based on university research.

- Collaborated with a remote software development team and founders to create and maintain a cohesive direction for the product suite.

- Created user stories, wireframes and prototypes to suit various iterations of the product and hardware.

- Coordinated interns to manage social accounts, create marketing collateral and assist with user testing sessions.

Code Camp Australia | Course Teacher

MAR 2017 - DEC 2017, BRISBANE, AUSTRALIA

- Led three and four day programming courses for kids ages 6-12 teaching logic and visual design through the creation of video games.

- Managed a course syllabus, class of students and several teaching assistants independently.

- Debugged and added standard features to all student games before publishing.

Relay Labs / Software Developer

NOV 2016 - NOV 2017, CALGARY, CANADA & REMOTE

- Assisted in development, documentation and testing of various software and web apps for clients.

- Peer reviewed documentation and debugged code for team member's projects while working independently on other client projects.

- Continued working remotely from Australia after completion of the four month internship period.
